Parts list

- This image contains ten numbered steps (1 through 10) for building a large LEGO model, likely a bridge or similar structure. Each step includes a parts list and a build diagram.

 - Step 1:** Parts: x2, x2, x6, x4, x4, x24, x1. Build: A base layer of 4x8 light blue 2x4 tiles. A 2x2 white Technic pin connector is placed on top of the center tile. A 2x4 white plate is attached to the right edge of the base.
 - Step 2:** Parts: x6, x6, x2, x1. Build: A 2x4 white Technic pin connector is attached to the top right corner of the base. A 2x8 light blue 2x4 tile is attached to the top of the base, centered.
 - Step 3:** Parts: x6, x2, x4, x1, x1. Build: Two 2x4 light blue 2x4 tiles are attached to the top of the base, one on each side of the center. A 2x2 white Technic pin connector is attached to the top left corner.
 - Step 4:** Parts: x6, x6, x2, x1. Build: A 2x4 light blue 2x4 tile is attached to the top of the leftmost 2x4 tile from step 3. A 2x2 white Technic pin connector is attached to the top right corner of the base.
 - Step 5:** Parts: x6, x2, x4, x1, x1. Build: A 2x4 light blue 2x4 tile is attached to the top of the rightmost 2x4 tile from step 3. A 2x2 white Technic pin connector is attached to the top left corner of the base.
 - Step 6:** Parts: x4, x4, x6, x2, x2. Build: Two 2x4 light blue 2x4 tiles are attached to the top of the two 2x4 tiles from step 5. A 2x2 white Technic pin connector is attached to the top right corner of the base.
 - Step 7:** Parts: x2, x4, x2, x4, x1, x4. Build: A 2x4 light blue 2x4 tile is attached to the top of the leftmost 2x4 tile from step 6. A 2x2 white Technic pin connector is attached to the top left corner of the base.
 - Step 8:** Parts: x2, x4, x4, x1, x4, x2. Build: A 2x4 light blue 2x4 tile is attached to the top of the rightmost 2x4 tile from step 6. A 2x2 white Technic pin connector is attached to the top right corner of the base. A blue callout box highlights a 2x2 white Technic pin connector being inserted into a slot on the side of the structure.
 - Step 9:** Parts: x2, x4, x4, x2, x2, x1. Build: A 2x4 light blue 2x4 tile is attached to the top of the leftmost 2x4 tile from step 8. A 2x2 white Technic pin connector is attached to the top left corner of the base. A blue callout box highlights a 2x2 white Technic pin connector being inserted into a slot on the side of the structure.
 - Step 10:** Parts: x4, x4, x2. Build: A 2x4 light blue 2x4 tile is attached to the top of the rightmost 2x4 tile from step 8. A 2x2 white Technic pin connector is attached to the top right corner of the base. A blue callout box highlights a 2x2 white Technic pin connector being inserted into a slot on the side of the structure.
